SHSAT Winter 2027 Preparation

LEVEL 1 | FOUNDATION

Build durable grade-level reasoning and complete coverage of official SHSAT Math and ELA domains. Introduce computer-adaptive test habits early.

PROGRAM AT A GLANCE

PROGRAM STRUCTURE	Approved: 12 weeks; 24 meetings; 72 hours; maximum 12 students.
CLASS OPTIONS	Mon & Wed 5:30–8:30 PM, or Sat & Sun 10 AM–1 PM.
CLASSROOM FORMAT	75 min Math + 75 min ELA / Reading & Writing + 30 min guided review per 3-hour meeting, where applicable.
INSTRUCTION	Small group lessons, guided solutions, original skill-based practice, timed checkpoints and personalized interventions.

EXAM ALIGNMENT & RIGOR

- NYC Public Schools domains: ELA reading comprehension and revising/editing; Math ratios, number systems, expressions, equations/inequalities, statistics/probability and geometry.
- Digital practice includes selected-response, fill-in and technology-enhanced items, with passage-set review and no-backtracking decisions.
- Historical questions inform topic selection; new AhmedPrep worksheets use independently written items.

ASSESSMENT & FAMILY COMMUNICATION

- Entry diagnostic and topic-level skill record; weekly originality-checked mastery quizzes and correction.
- Milestone reviews and concise parent reports; official platform practice supplements AhmedPrep material.

ENROLLMENT NOTES

Regular $1,440; founding-family $1,080 for first five fully paid per cohort, subject to availability; deadline Dec 12, 2026, 11:59 PM ET; full payment required.

Contact: (347) 479-5020 | Tariq@ahmedprep.com | ahmedprep.com

AhmedPrep is an independent preparation center; its original materials are aligned with publicly available exam specifications, not endorsed or certified by NYC Public Schools or College Board.

SHSAT Winter 2027 | Weekly scope and sequence

EACH WEEK HAS EXAM-ALIGNED MATH AND READING/WRITING CONTENT

WK	MATHEMATICS	ELA / READING & WRITING
1	Number sense, rational operations, estimation	Diagnostic reading, editing, digital item navigation
2	Ratios, percentages, proportional relationships	Grammar: agreement, boundaries, precise revisions
3	Expressions and multi-step equations	Central ideas, details and inference
4	Inequalities, rates, unit reasoning	Author purpose, structure and tone
5	Angles, triangles, similarity, scale	Narrative fiction and character analysis
6	Area, volume and composite figures	Poetry, figurative language and evidence
7	Coordinate relationships and graphs	Informational and scientific argument
8	Statistics, probability and data displays	Paired perspectives and evidence evaluation
9	Multi-step quantitative applications	Revision: organization and logical progression
10	Hard mixed-domain quantitative reasoning	Hard mixed passages and editing precision
11	Unseen digital-style sets; error analysis	Passage-set decisions and answer commitment
12	Final benchmark and individual plan	Final benchmark, editing and comprehension

HOW STUDENTS ADVANCE

- Mastery of current skills determines advanced practice; grade-level support is added where needed.
- Official digital SHSAT practice helps familiarize students with the interface; AhmedPrep paper mocks do not reproduce adaptive scoring.

Academic target: maximize each student's performance through precise reasoning, original problems, and review of mistakes. Exact scores and admissions outcomes cannot be guaranteed.
